

Chronic Care Management

IMPROVING PEOPLE'S LIVES

Chronic Care Management is a comprehensive healthcare program designed to support individuals living with long-term medical conditions. At its core, CCM aims to enhance your overall well-being by providing a tailored approach to managing your health and improving your quality of life.

What it includes:

- Personalized Care Plan
- Medication Management
- Regular Check-Ins
- Electronic communication of medical information to support the Coordination of Care
- Referral Coordination
- Health Education
- Local providers will provide CCM services
- Cost sharing may apply to the services (If you have a co-pay for an office visit you may have cost sharing)
- Services may be canceled at any time

**Program Could Be:
Covered by Medicare and Most Major Insurances**
